

RESOLUTION 2SH

The R2SH skeletal loudspeaker is the mid-high section of a Resolution 2 producing high output for its compact size. Operating upwards from 250Hz it can either be used in conjunction with Funktion One bass enclosures such as the F118, F215 or BR118 as a main system in its own right, or used effectively as in-fill or delays in larger systems.

Features:

- Passive crossover (minimising amp/x-over usage)
- Funktion One designed drivers (8" and 1")
- Includes stainless steel mounting yoke
- Optional scrim for discrete appearance
- 100V line and fire retardant versions available
- R2EH version available in wooden enclosure

Driver	Operating Band	Sensitivity (1W at 1m)	Power (rms*)	Nominal Impedance
8"	250 - 6k5Hz	106dB	200W	} 12Ω Total
1"	6k5Hz - up	107dB	50W	
*AES rated				

Frequency Response $\pm 3\text{dB}$:

250Hz - 18kHz

Weight:

13kg (29lbs)

Nominal Dispersion:

50° Horizontal x 25° Vertical

Connectors:

Speakon NL4
